ABOUT ME

Passionate Computer Science student and aspiring Full Stack Developer with strong interest in building modern, high-performance web applications. Skilled in JavaScript, HTML, CSS, and backend technologies, with hands-on experience in creating real-world projects. Alongside development, I specialize in video editing and content creation, helping brands and creators grow through engaging digital experiences. Currently focused on learning advanced technologies like AI, cloud computing, and system design to build scalable and impactful solutions.

WORK EXPERIENCE

FREELANCE VIDEO EDITOR | SELF-EMPLOYED

Worked as a freelance video editor, creating high-quality Instagram reels, YouTube edits, and promotional videos for creators and small businesses. Focused on storytelling, motion graphics, and audience engagement to enhance brand presence and reach. Consistently delivered projects with fast turnaround while maintaining client satisfaction and quality standards.

WEB DEVELOPMENT | PERSONAL

Worked on developing modern and responsive web applications using HTML, CSS, JavaScript, and backend technologies. Built real-world projects including portfolio websites and web tools with a strong focus on performance, user experience, and clean design. Gained hands-on experience in full stack development, version control using Git, and deployment on platforms like Netlify while continuously learning advanced concepts such as system design and cloud technologies.
